

Garment pattern from Knitwords magazine

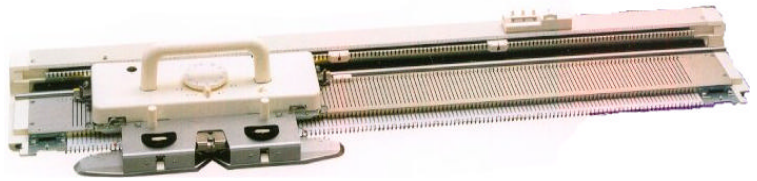

Knit for All Seasons,
from Fine Summer Knits
to Bulky Winter Wear

Mid Gauge Magic

SK860 Electronic

The SK 860 is the newest knitting machine and the first of its kind anywhere! With a 6.5 needle pitch, the SK 860 is designed to work with all the yarns typically used by hand knitters. By knitting yarns that fall in the top range for a standard gauge machine and in the lower range for a chunky machine, this machine can deliver the best of both worlds.

Add Concept and you have a winning team!!

Concept creates a link between your computer and the Silver Reed Electronic Knitting Machines. It opens a world of design potential. Create your own stitch patterns. Open basic shape files apply your stitch gauge and receive on screen knitting instructions.

Take a step up to

DesignaKnit 7

Professional version

DesignaKnit 7 comes packed with all the features of the **Concept** plus gives you the tools to create your own garment shapes.

Easily convert photos and clipart into knitting stitch designs. Create basic shape garments from templates enter your measurements and start knitting. Enhanced drawing tools and an add on Lace design tool makes the most complex tasks simple. The optional Direct Link cable completes the connection.

Open new possibilities in home knitting..

Your imagination is the only limit.
